## Abyaar's Acacia Villas feature high-end bathroom fittings from Dornbracht

**Dubai, February 2, 2010** Abyaar Real Estate Development (Abyaar) proudly announces the signing of an agreement with United Supplies Est., the UAE trading partner of many years of Dornbracht, an international operating manufacturer of high-end design fittings for bathrooms and kitchens, headquartered in Iserlohn/Germany. United Supplies Est. will be responsible for all bathroom units of Abyaar's prestigious Acacia Villas, a picturesque layout of 52 stand-alone villas as part of the Acacia Avenues project, the first freehold project in Jumeirah.

The 5 and 6 bedroom villas will feature Dornbracht's successful Meta 02, MEM and LULU ranges. Marc Kandalaft, General Manager of United Supplies Est. about the project: "With its flat, wide spout, the MEM fitting represents a fresh, elementary approach to the aesthetics of bathroom fittings. LULU joins together concise design and rounded edges to give a soft formal expression and the pared-down shape of Meta 02 fits perfectly into the bathrooms of the minimalistic yet feature-filled Acacia villas. The delivery of Acacia Villas by Abyaar is a symbol of success and reliability amid challenging economic conditions. United Supplies Est. is proud to be a key supplier for this prestigious project of Abyaar and hope for their continued success in future projects."

Commenting on the co-operation, Phil Payne, General Manager Dornbracht Middle East, stated: "Abyaar developments stand for luxurious, contemporary urban living. The company is recognized for contemporary design in the very best location and does not compromise when it comes to quality construction and refined interiors. Dornbracht, as a producer of high quality designer fittings for the bathroom and kitchen, has the same approach. Our products are not merely decorative; they are an expression of a distinctive bathroom culture. Fittings and accessories are manufactured with superb craftsmanship. Numerous national and international design distinctions and awards have served to endorse this approach. Dornbracht leads the premium sector coupled to our own market positioning this made it somewhat inevitable that we would be working together."

"We are delighted to have Dornbracht fitting out the Acacia Villas. The company has great capabilities to strategically favorable respond to our needs. We also see complete harmony between our activities", stated Amin Shanti, the Construction Director of Abyaar. "We highly appreciate Dornbracht's constant support in meeting our needs. We hope that this agreement will further extend the fruitful cooperation between us and will be the beginning of a long-term relationship based on trust and transparency", Shanti concluded.
